DETAILED ACTION

Rejections Repeated

1. The 35 U.S.C. 102/103(a) rejection of claims 29-34 anticipated by or in alternative unpatentable over Vaal et al. has been repeated as previously made in office action 10/20/10.

Response to Arguments

2. Applicant's arguments filed 1/20/2011 have been fully considered but they are not persuasive.

In response to applicant's argument that Vaal et al. fail to disclose or suggest that a fuel is supplied from a fuel cartridge connected to a connecting part of the fuel cell system on the basis of a detection by a sensor for detecting that the fuel cartridge is connected to the connecting part to start replacement of gas in the fuel cell system, Vaal et al. discloses that a fuel is supplied from a fuel cartridge connected to a connecting part of the fuel cell system on the basis of a detection by a sensor (paragraph 0045). As to the limitation, "for detecting that the fuel cartridge is connected to the connecting part to start replacement of gas in the fuel cell system" is intended use. It has been held that a recitation with respect to the manner in which the claimed particle is intended to be employed does not differentiate the claimed article form a prior art article satisfying the claimed structural limitations. Ex parte Masham, 2 USPQ2d 1647 (1987). Furthermore, the sensor disclosed by Vaal et al. only has be capable of performing the claimed features therefore, the sensor disclosed by Vaal et al. is capable of detecting the fuel cartridge is connected to a connecting part of the fuel cell system

Art Unit: 1726

because Vaal et al. discloses that the sensors monitor a number of fuel cell system operating parameters to maintain the fuel cell system operation with in acceptable limits (paragraph 0052).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JANE RHEE whose telephone number is (571)272-1499. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
